

Drinking Water Chemistry Laboratory Certification Program

**2020 Laboratory Scope of Accreditation**

Date Issued January 7, 2020

**Micro-Methods Inc.**  
 6500 Sunplex Drive  
 Ocean Springs, Mississippi 39564  
 EPA ID: MS00021

| Standard / Analyte                 | Method Number | Method Approval | Certification Start Date | Certification End Date | Certification Status |
|------------------------------------|---------------|-----------------|--------------------------|------------------------|----------------------|
| <b>Metals</b>                      |               |                 |                          |                        |                      |
| Barium                             | EPA 200.8     | Yes             | January 1, 2020          | December 31, 2020      | Certified            |
| Beryllium                          | EPA 200.8     | Yes             | January 1, 2020          | December 31, 2020      | Certified            |
| Cadmium                            | EPA 200.8     | Yes             | January 1, 2020          | December 31, 2020      | Certified            |
| Chromium                           | EPA 200.8     | Yes             | January 1, 2020          | December 31, 2020      | Certified            |
| Copper                             | EPA 200.7     | Yes             | January 1, 2020          | December 31, 2020      | Certified            |
| Copper                             | EPA 200.8     | Yes             | January 1, 2020          | December 31, 2020      | Certified            |
| Lead                               | EPA 200.8     | Yes             | January 1, 2020          | December 31, 2020      | Certified            |
| Mercury                            | EPA 245.1     | Yes             | January 1, 200           | December 31, 2020      | Certified            |
| <b>Inorganics</b>                  |               |                 |                          |                        |                      |
| Nitrate as N                       | SM 4110B      | Yes             | January 1, 2020          | December 31, 2020      | Certified            |
| Nitrite as N                       | SM 4110B      | Yes             | January 1, 2020          | December 31, 2020      | Certified            |
| <i>Support for Lead and Copper</i> |               |                 |                          |                        |                      |
| Calcium                            | EPA 200.7     | Yes             | January 1, 2020          | December 31, 2020      | Certified            |
| Conductivity                       | SM 2510B      | Yes             | January 1, 2020          | December 31, 2020      | Certified            |
| pH                                 | SM 4500H+ B   | Yes             | January 1, 2020          | December 31, 2020      | Certified            |
| Sodium                             | EPA 200.7     | Yes             | January 1, 2020          | December 31, 2020      | Certified            |

Chemistry Laboratory Certification Officer:  Date: 1/17/2020
